DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-14, 26, and 27, drawn to a complex of paroxetine and a cyclodextrin, and pharmaceutical compositions thereof.

Group II, claims 15-25, drawn to process of preparing a complex of paroxetine and a cyclodextrin.

Group III, claim 28, drawn to therapeutic method of comprising administration of a complex of paroxetine and a cyclodextrin.

The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The common feature to the three groups set forth above is a complex of paroxetine and a cyclodextrin. However, RONSEN

Art Unit: 1623

et al (WO 99/16440) discloses a complex of paroxetine and a cyclodextrin. Therefore, there is no novel feature, supplied by Applicant, unifying the inventions, and there is not unity of invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
